Hear Ye! Hear Ye! Hear Ye!!

THE subscriber having taken the agency for the sale of Burdict and Bartlett's Grecian Caoutchoug Oil Polish, is now prepared to furnish the article to store keepers at Manufacturer's prices.

This article is composed of neats foot oil and Gutta Percha, acting as a preserver of leather as well as polish. An article of this kind has long been needed, as every one knows that common blacking will not polish or oil over grease.

The attention of livery stable keepers, and those keeping carriages and harnesses, is invited to this article, as it is unsurpassed for the purpose of cleaning carriage tops, harnesses, &c. It is put up in large size boxes, con-

COFFINS and other funeral appurtenances.—The subscribers have on hand and will make at short notice coffins of every description of wood and finish; also robes, trimmings, &c., and if desired they will superintend funeral arrangements and furnish all articles connected with and used on these mournful occasions.

They have also a method of preserving a corpse for any desirable length of time, until friends and relatives can arrive from Europe or distant parts of our own country.

If required they can give the best of references as to their mode of attending to matters of this kind.

Orders for the whole or part of these arrangements are solicited, and will be promptly executed, with the utmost regard for the feelings of those concerned.

NEW MAP OF NEWPORT.—The subscriber has now nearly ready for publication an entirely new map of Newport Township, including a large part of Middletown.—Showing all the Island South of Coddington Cove, and from Castle Hill on the West, to Sachuest Point on the East. The whole made from recent surveys hitherto unpublished—It will be the only typographed map of the Township yet made, and is of sufficient size to allow the position of every house to be indicated, and the names given of all the land holders without the limits of the City.

The copy prepared for engraving, is now ready for inspection and corrections, as it is my wish to make it much nearer a correct map than any yet issued.

The price $5. The size about 36×41 inches Subscriptions will be received at 124 Thames street by CHAS. E. HAMMETT Jr.

LADIES' DELIGHT!
RELIEF COME AT LAST.

J. WISNER'S Washing Machine, Patented Sept. 26th, 1854, is a large tub with zinc fitted on the bottom, also on the under side of the rubber. It stands on a stool, and weighs about 25 lbs; is simple and handy and has been thoroughly examined and tried by thousands at the West within the past year, who pronounce it to be the best labor saver ever offered to the public. It has been tested sufficiently long to prove that whenever it has been used properly, it will tell a better story for itself than I can communicate. Give it a trial, and you will be entirely satisfied of its superior merit.

AMERICAN AND FOREIGN PATENTS

R. H. EDDY, Solicitor of PATENTS
(Late Agent of U S. Patent Office, Washington, under the Act of 1837.)
NO. 76 STATE, OPPOSITE KILBY ST.,
BOSTON,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.

CHAS. MASON," *Commissioner of Patents.*

"I have no hesitation in assuring Inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,"
Late Commissioner of Patents.
Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications on all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17th, 1857, to Jan. 1st, 1859, ... was decided in *his favor*, by the Commissioner of Patents.

NOTES TO PAY.

BY C. D. WHITMORE.

Ah! happy's the man who has notes to pay.
He has nothing but fun the live-long day,
In times when trade is dull;
With no sales at the store, no loans at the bank,
And friends, and neighbors, all looking as blank
As sheep that have lost their wool.

The golden prongs of the morning sun
Strike athwart his face, as he trudges along
Considering the ways and means;
With checks to make good, and notes to pay,
The first quite early, and all, to-day,
By the rule of bricks without straw.

"Who'll lend? there's Ruggles has two notes to meet;
And Mellen, poor fellow! he died last week;
He always helped me through!"
A throb of the heart, and a moistening eye,
Is all he can spare,—as his troubles flit by—
To the friend that is lost and gone.

The scream of the whistle is heard on Parnassus;
And a Yankee sells beans at its foot, by the car-house,
And Corydon pipes no more;
Or rather his pipe is short, and black,
And of garlic and soot has a wonderful smack,
And everything's changed on the earth.

But there's never a change in the horrible way
That a poor fellow feels, when he's notes to pay
And nothing to pay them with;
Even Cæsar, 'tis said, shaking worlds with a nod,
Would dash down his helmet, and kick it a rod,
When his due bills came round too fast.

Jones steps to his bank—that note may be *done!*
He knows it's a bite, but it still may be won
... torn,
With his hat sweating down o'er his eyes.

He borrows and figures; his coat tails swing round;
It's late, he's still short, and no lender is found,
When a flash of genius bursts forth;
He flies to B—— Brothers, pawns shirts, coat and pants,
Then naked as Adam strides down to the banks,
Quite as naked, except hat and boots.

The wicket slides down ere his bills are unfurled,
The blood from his knuckles spurts over the world;
But he's paid his notes—for to-day!
So, happy's the man who has notes to pay,
He has nothing but fun the live-long day,
In times when trade is dull.

MISCELLANY.

THE RESCUE.

[*Continued.*]

The mate complied, and the captain, after narrowly comparing the two handwritings, said, "Mr. Bruce, go and tell the second mate to come down here."

He came, and, at the captain's request, he also wrote the same words. So did the steward. So, in succession, did every man of the crew who could write at all. But not one of the various hands resembled in any degree, the mysterious writing.

When the crew retired the captain sat deep in thought. "Could any one have been stowed away?" at last he said, "The ship must be searched; and if I don't find the fellow he must be a good hand at hide-and-seek. Order up all hands."

Every nook and corner of the vessel, from stem to stern was thoroughly searched, and that with all the eargerness of excited curiosity—for the report had gone out that a stranger had shown himself on board; but not a living soul beyond the crew and the officers was found.

Returning to the cabin after their fruitless search, "Mr. Bruce," said the captain, "what the devil do you make of all this?"

"Can't tell, sir. I saw the man write; *you* see the writing. There must by something in it."

"Well, it would seem so. We have the wind free, and I have a great mind to keep her away and see what will come of it."

"I surely would, sir, if I were in your place. It's only a few hours lost, at the worst."

"Well, we'll see. Go on deck and give the course nor'west. And, Mr. Bruce," he added, as the mate rose to go, "have a lookout aloft, and let it be a hand you can depend upon."

His orders were obeyed. About three o'clock the look-out reported an ice-berg nearly ahead, and shortly after what he thought was a vessel of some kind close to it.

As they approached, the captain's

glass disclosed the fact that it was a dismantled ship apparently frozen to the ice, and with a good many human beings on it. Shortly after, they hove to, and sent out the boats to the relief of the sufferers.

It proved to be a vessel from Quebec, bound to Liverpool, with passengers on board. She had got entangled in the ice, and finally froze fast, and had passed several weeks in a most critical situation. She was stove, her decks swept—in fact a mere wreck; all her provisions, and almost all her water gone. Her crew and passengers had lost all hopes of being saved, and their gratitude for the unexpected rescue was proportionately great.

As one of the men who had been brought away in the third boat that had reached the wreck was ascending the ship's side, the mate, catching a glimpse of his face, started back in consternation. It was the very face he had seen, three or four hours before, looking up at him from the captain's desk.

At first he tried to persuade himself it might be fancy; but the more he examined the man the more sure he became that he was right. Not only the face but the person and the dress exactly corresponded.

As soon as the exhausted crew and famished passengers were cared for, and the bark on her course again, the mate called the captain aside. "It seems that was not a ghost I saw to-day, sir: the man's alive."

'What do you mean? Who's alive?"

"Why, sir, one of the passengers we have just saved is the same man I saw sitting at your slate at noon. I would swear to it in a court of justice."

"Upon my word, Mr. Bruce," replied the captain, "this gets more and more singular. Let us go and see this man."

They found him in conversation with the captain of the rescued ship. They both came forward, and expressed, in the warmest terms, their gratitude for deliverance from a horrible fate—slow-coming death by exposure and starvation.

The captain replied that he had but done what he was certain they would have done for him under the circumstances, and asked them both to step down into the cabin. Then, turning to the passenger, he said, "I hope, sir, you will not think I am trifling with you; but I would be much obliged to you if you would write a few words on this slate." And he handed him the slate, with that side up on which the mysterious writing was not. "I will do anything you ask," replied the

Caste Schools.

A petition is now before the General Assembly of this State, praying that body to abolish caste or colored schools; and if we understand aright, requiring that the children of colored parents be received into the ordinary public schools on an equality, and with the same advantages, as the whites. The petitioners affirm that the colored citizens of the State are taxed in the same proportion as the whites, and that they ought to have the same advantages; that the colored schools are not of a sufficiently high grade to meet the intellectual requirements of their children; and that it is humiliating to them to be kept out of the white schools, thus depriving them of the emulation which they would feel if put side and side with the white children.

This petition has been the cause of much excitement throughout the State, and particularly in the cities of Providence and Newport, nine-tenths of the inhabitants of which including many of the colored people are opposed to its being granted, for various reasons, one of the most prominent of which, is a natural aversion of the whites to have their children associate and amalgamate, as it were, with the colored children; and especially do they feel agrieved at an attempt to force upon them so odious a measure. We have been induced, as a public journalist, to examine the matter particularly, and find the opposers to the abolition of the colored schools have an endless quantity of arguments on their side, outside of their mere aversion to the colored race, which it may be well to consider.

Some years ago, two colored schools were established in the city of Newport, at the ernest solicitation of many of the most respectable colored citizens, previous to which time we are informed colored scholars were received into the public schools on an equality with the whites. The colored people *then thought*, however, that in a separate school by themselves, their children would be more sure to receive attention from the teachers; that they would have the opportunity to emulate each other more, as they would not meet with so large a field; and still further, that they would be freed from the taunts, and possibly the insults, of the whites, who so vastly outnumbered them in the other schools. As we have already said, at their earnest request these schools were established by the city of Newport, and are now in successful operation. For the support of these schools, our city pays annually $790,00, while the entire tax paid by the colored citizen into the city treasury amounts to only $256,22- being little more than one-third of the amount paid out for the schools provided for their children; the balence of which is of course made up by taxes upon the white population. Hence it will be seen, that instead of the colored citizens having to pay a tax and not receiving the advantages which it entitles them to, as has been represented, the white population are required to pay nearly twice as much as *the* entire tax of the blacks for the support of *their* public schools, the average attendance at them daily not exceeding forty pupils, and costing the city $17,50 per annum for each scholar; whereas the average cost of each scholar in the white public schools is probably not more than half of that sum.

We are informed by members of the School Committee, that good and efficient teachers have been furnished for the colored schools, and although they do not rank as high as some of the other schools, in no instance have they been found inefficient; also that the policy of the city has always been to furnish them with all the advantages which the white possess. If their intellectual progress required, or should hereafter require, a *High* school, it would undoubtedly be furnished: but past experience in the progress of the colored pupils does not seem to show that a school of any higher grade will be required by them for many years to come.

The present agitation of the subject has been caused by George T. Downing, a wealthy and influential colored person aided by ablitioniststs and *would-be* philanthropists, whose object does not appear to be so much the welfare of the blacks, as an attempt to humiliate the whites. Indeed a large majority of the colored people are decidedly opposed to the movement, and since the agitation has commenced, the colored schools have been better attended than ever before, despite the recommendations from the "petitioners" that children should be withdrawn from them.

Some gentlemen, particularly one or two of the clergymen of this city, have joined with the "petitioners," although they can but be aware that the almost unanimous sentiment of their congregations is opposed to any agitation of the matter, and their own houses of worship are ornamented with what in old times were called "nigger pews." We would other quotations, such as "pluck the beam first out of thine own eye," etc., which would not, perhaps, be inappropriate for their consideration. Still we do not mean the least disrespect to those worthy gentlemen, who undoubtedly were misled by false representations to take the prominent part accorded to them in the matter.

It certainly does not seem right that the poor blacks should be, in order to satiate a false philanthropy, obliged against their inclinations, to associate with the whites; neither is it just to force them into the white schools, where the strong prejudice of a large majority of pupils would be sure to show itself in taunts, and perhaps unprovoked insults. For the sake of the colored children, then, if for nothing else, let us keep them where they are, independent, happy and more likely to gain the instruction required, than they would ob under any other circumstances.

LOCAL ITEMS.

Musical Soiree.

This interesting event occurred as advertised, on Tuesday evening. With the exception of substituting "Stars of Summer Night,"—a Quartette—, for the Duett "Still o'er the Waters," and five encores, the performance was according to the Programme. The performers were in good spirits, and the singers in good voice, and they all exerted themselves to please the audience, and in this they succeeded.

Miss Copeland has been, and is now, a favorite singer with Newport audiences; and her performances last evening will do nothing to reduce her reputation, in the minds of those who had the pleasure of hearing her.—She has evidently a strong love for music, and devotes much time and labor to it.

Mrs. E. A. Payne is a stranger here, and for the first time made her appearance before Newport people in the Concert room, Tuesday night. She has been classed as a *Contralto* Singer, but can sing higher than many who are classed as *Soprano*. She has evidently had the benefit of good private vocal instructions, as the command over her organs shows. Her first impressions were certainly very favorable, and she contributed largely to the pleasure of the evening.

Miss S. T. Barker also, as Contralto, in the Quartettes, showed sufficient vocal power for a good balance. It is difficult to judge of a voice, heard only in Quartette, or chorus, as to its power or smoothness; but Miss B. made a good combination, neither too prominent, or too soft, which shows good taste, and an inclination to treat the science in a conscientious manner.

Mr. Davis has an excellent voice for ballad singing, as exhibited Tuesday night. He evidently prefers that style of music, and it being far the best adapted to his voice, he should pay more attention to that form of composition than to any other, else he may lose the best part of his power as a musician. Ballad singers are few, and their number is diminishing, in this country, at least; so that a cultivated performer of that style is fast becoming a treasure.

Mr. Stanley is well known to our community, as the pains-taking, faithful Conductor of music in Zion Church, where his labors are duly appreciated. Mr. [illegible] sustained the bass in all of the Quartettes [illegible]. Particularly was this true in "Rest, Spirit Rest," where A really seemed to fill the whole harmony and properly sustained the other voices.

All the Quartettes were accompanied by Mr. T. Spencer, 2nd, and he also sustained the melody in a *Duo* for four hand performance. Mr. S. is the genial, accommodating, and competent organist of Zion Church.—He has been a favorite with choirs where he has played some years past, and he showed the same good qualities in the Concert room. It is with many pianists, an ungrateful task, to act as accompanier or second. Mr. Spencer showed himself a pains-taking, good player, and retired from the performance with credit.

This was also the first appearance in Concert, in Newport, of Mr. Payne, who on this occasion was Conductor. From the opening neat apology to his closing up of Mrs. Payne's last song, his labors were well put forth, and entirely successful. The execution of which Mrs. Payne is capable upon the piano-forte, was eminently satisfactory, although we fancied he did not do himself justice in his selections.

A word or two in general, and we will leave the subject. It is gratifying to see so many at a public performance of music, even if a part of them were present from other motives than a love of the "art divine." It was also encouraging, to have some of the best music upon the programme, applauded. We wish that we could *hear* more applause bestowed upon good music, and less upon poor. All such indications are encouraging to those who are both friends to Newport interests, and lovers of music. It is also pleasing to hear such evidences of study, love and practice in this powerful, health-giving, refining art, as were exhibited by the generous performers, and we hope that they will continue in the good work. All pictures must have their shades, else they are imperfect. We will offer, from motives of kindness alone, one criticism. Had the voices been, as a general thing, fuller, and the articulation of the words more distinct, we think the performance would have been improved. The probabilities are, that the rehearsals took place in a room considerably smaller than Aquidneck Hall, and it is owing to this circumstance, that the singers did not make a little more exertion. It is an error very common to older singers.

To the Ladies of Zion Church, this must be a gratifying success, although nothing more than what might be expected, when *they* undertake anything. When were ladies ever known to fail in such an enterprise?

We wish to whisper a word or two, to the dear public. Singers love to meet with your approval. To obtain that, is one of the motives which brings them before you. They like to have you manifest it by applause, and they might feel discouraged if it was not manifested. But there is one form of applause, which is liable to injure them, and that form is stamping upon the floor. It many times raises a fine dust, which their delicate organs are forced to inhale, and by which singers are prevented from using those organs. Encourage

JANUARY SESSION—IN PROVIDENCE.

Tuesday Morning, Feb. 7.

House of Representatives.

The House met at 10 o'clock, Mr. Speaker Hayes in the chair.

Mr. Van Zandt presented a certified copy of a memorial to the Governor and Council of Massachusetts, signed by S. B. Tobey, E. D. Peirce, and other non-resident tax-payers of the town of Seekonk, which was read and referred to the joint committee on the proposed change of boundary ine.

Mr. Mowry, of Smithfield, under a suspension of the rules, introduced an act in amendment of Chapter 183—Of Internal Police—providing for the enforcement of the law passed at the present session against the use of ferrets or weasels in hunting hares. Read and referred to the Committee on the Judiciary.

Mr. Van Zandt, from the Committee on the Judiciary, reported back the petition of Cook Borden and others, for widening draw in R. I. Bridge Co.'s bridge, and recommended that it be referred to the Committee on Corporations. It was so referred.

Mr. Hart presented the remonstrance of the Town Council of Tiverton and others against the proposed change of boundary line. Referred to the special committee on the subject.

Mr. Hartwell, from the same committee, reported back the memorial of Wendell Phillips and other representatives of the National Woman's Rights Convention, asking that the word "male" may be expurgated from the Constitution, &c. The committee recommended that the petitioners have leave to withdraw.

Mr. Knowles, of Providence, desired to know what reasons had actuated the committee in making that recommendation.

Mr. Hartwell said the committee had been governed by no special reasons.—They believed that the women of this State enjoyed all the rights they could reasonably claim, and that there was no call for further legislation in their behalf.

It having been suggested that Dr. Watson had something to say upon the subject, the report was temporarily laid on the table.

Mr. Brownell, of Little Compton, presented the remonstrance of Walter Wilbur and eighteen others, and Charles W. Howland and twenty others, of that town, against the proposed change of boundary line. Referred to the joint Special Committee on the subject.

Mr. Manchester, of Fall River, presented the petition of Wm. Hill for change of boundary line, which was received and referred to the appropriate committee.

Petition of the town of Middletown for liberty to aid in the construction of a Railroad, (from the Senate) was referred to the Committee on Judiciary.

Mr. Manchester, of Portsmouth, under a suspension of the rules, introduced an act changing the time of electing town officers in Portsmouth, which was read, passed to a second reading, and referred to the Committee on Judiciary, to whom, also, was referred the petition of George Manchester and John Tallman, in favor of such an act.

Mr. Sanford, under a suspension of the rules, introduced an act in addition to Chapter 218 - Of Offences against Public Policy--making it a penal offence to get money by three-card monte, fortune telling, &c. Read, passed to a second reading and referred to the Committee on the Judiciary.

Mr. Brownell, for the Committee on the Judiciary, reported back a substitute for the act in amendment of Chapter 83—Of the Election and Qualification of Town Officers—and it was laid upon the table for the present.

Mr. Smith called up the bill for the abolition of colored schools.

Mr. Bicknell, of Barrington, addressed the House in a very able and candid manner in favor of the bill. He said he had listened attentively to the arguments presented by the opponents of the bill, but he had not been convinced of the plausibility, right or expediency, even, of longer continuing the present system. He wished to do what was best for both whites and blacks. Mr. B. contended that the public school room was the only place where all classes can stand on terms of social equality; and that the blacks had the same constitutional right to meet there that was possessed by the whites. As well might poor white children be excluded because a majority deemed it expedient. Mr. B. thought the course of the School Committee of Providence had proved injurious to the interests of the blacks by placing a ban upon them, and quoted from the constitution that "all civil incapacitations tend to beget habits of hypocrisy and meanness."

Mr. Baker, of Warren, opposed the bill, remarking that there was an impassable barrier between the white man and the black man, placed there by the Almighty Creator of us all, which has stood ever since Cain killed Abel, and will stand while the world shall exist. He said it did not concern his constituents, and he appealed to his colleagues from the country towns, if it was just or proper, simply because they have a right, to adopt a course of legislation affecting only the town of Bristol and the cities of Newport and Providence, when that town and those cities, through their Representatives on this floor, ask us not to do it.

Mr. Sanford offered the following as a substitute.

Section 1. School Committees of the cities of Newport and Providence, and the town of Bristol, are hereby authorized in their discretion, to admit any colored child into the primary schools of said cities or town, whenever, in the opinion of the said committee where said child resides, said child is prevented by reason of distance, from attending the colored schools established in said cities or town.

Section 2. All acts or parts of acts inconsistent herewith are hereby repealed.

Mr. Stevens, of Newport, opposed the substitute. Let us have the whole dose or none. Let the towns control their schools, or give up the control to the State. Mr. S., in alluding to the petitions from Newport, said too much stress had been placed upon the memorial of sundry reverend gentlemen of that city, in whose churches caste pews are maintained with their full approval or consent.

Mr. Smith, of Cumberland, supported the original bill and opposed the amendment.

Mr. Sanford briefly favored his substitute.

He claimed that it must be conceded that the constitution is not an instrument of detail and minutiæ, and that very much must be left to be modified by views of expediency. The main question then recurs, will it conduce to the highest good of the greatest number to put the colored children into the white schools of Providence, Newport and Bristol. Mr. V. Z. supported the substitute in a very effective manner, and during his speech of an hour's length, adduced many arguments why the Legislature should not lay its vandal hand upon the present prosperous system of education.

At 1 o'clock Mr. Van Zandt gave way for a motion of adjournment.

THIRTY-SIXTH CONGRESS.
FIRST SESSION.

Washington, Feb. 6.

SENATE.

Bills were introduced to regulate the pay of Pursers in the Navy; to extend the preemption privilege in California; for a line of railroad and telegraph to the Pacific. Resolutions were adopted to inquire into the expediency of establishing a semi-weekly mail between St. Joseph, Mo., and Placerville, Cal; and between New Orleans and El Paso. Also, as to the expediency of amending the law relating to protection granted seamen. The President was requested to communicate the instructions and dispatches sent to and received from the late Minister to China, and the former Commissioner. The bill to increase and regulate the pay of the Navy was made the special order for Monday. Mr. Chandler (Rep., Mich) moved to reconsider the vote ordering printed the President's St. Clair Flats message, which he said contained serious charges against Congress. After defending the passage of the bill, he withdrew his motion, and gave notice that he would ask the passage of the bill again. Mr. Davis (Dem., Miss.) replied, sustaining the position taken by the President. After some debate, the matter was laid over till Thursday. The Senate then adjourned.

HOUSE.

Mr. Clark (Dem., Mo.) denied that he had declared Mr. Douglas as the first choice of Missouri for President. Mr. Phelps (Dem., Mo.) called for the consideration of the Post-Office Appropriation bill, which, being taken up, was amended on motion of Mr. P. The House refused to strike out the provision allowing interest to the contractors. On motion of Mr. Sherman (Rep., Ohio), the House proceeded to the election of a Doorkeeper, and George Marston was chosen. On motion of Mr. Washburne (Rep., Ill), the House voted for Postmaster, and Josiah M. Lucas was chosen. Many notices of intention to introduce bills were given, some of which were very important. The House adjourned till Thursday.

DR. MATTISON'S
REMEDIAL INSTITUTE,
—FOR THE TREATMENT OF—
Special Diseases,
No. 28 Union St., Providence, R. I.

Circulars giving full information with references and testimonials, sent by mail. Also a Pamphlet on Diseases of Women with observations on Private and Chronic Maladies generally, sent free by enclosing a stamp to Dr. H. N. MATTISON as above.

Dr. M. is a thoroughly educated physician of nineteen years practice, giving his whole attention to the above named diseases. Persons at a distance, therefore, having any important and difficult case in this specialty will save much time and expense by applying either personally or by letter, to the REMEDIAL INSTITUTE.

N. B.—Accommodations for patients from abroad wishing to remain in the city for a short time under treatment.

A WORD TO INVALIDS.

All who have any serious or troublesome disease will very naturally seek advice somewhere, and this leads me to say a few words on the *choice of a physician.* And first, *let all quacks, impostors and humbugs alone.* If you have an intelligent physician in your vicinity apply to him immediately, and follow his directions explicitly, and for a sufficient length of time, and he will probably cure you; if not, then apply to one who makes your disease a *specialty*, for no physician in general practice, no matter how eminent, can treat a given disease, or class of diseases, as successfully as one of the same ability who makes such diseases a *specialty*, and devotes his whole attention to them. Educated physicians hitherto have stood aloof from making private diseases a specialty, and hence they have been monopolized by quacks.—The fear of losing caste in society, or of being classed among charlatans by the profession, has too long stood in the way of this most desirable result. What disgrace is there in treating a class of diseases specially that all physicians treat in general practice? Ricord of Paris, and Acton of London, both make *Private Diseases* a specialty, and yet their fame is an enviable as it is world-wide. It is in fact the only remedy for one of the most heinous and destructive systems of quackery in private diseases as practiced in all the larger cities throughout the country.—But to return I said let quacks and impostors alone. Their advertisements fill the newspapers and are well calculated to deceive the inexperienced, made up as they are of the most extravagant *pretensions*, but without a shadow of *evidence* of the truth of what they say. Advertising in itself is no sin, but *deceptive* advertisements are an abomination; and no advertising physician is entitled to *any confidence whatever* who does not give to the public the most undoubted guarantee both of his honesty and his skill.

In offering my services in a speciality which has heretofore been almost exclusively in the hands of impostors, I ask no man to employ me who is not fully convinced that I shall treat him courteously, deal honorably and with the strictest fidelity, and give him the best possible chance for a speedy and permanent cure. H. N. MATTISON,
o11 d w tf No. 28 Union st., Prov. R. I.

Blood Food!

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of physiology to the more immediate connection, and effect of the state of the blood upon the health and system. The restored to perfect health, within six months after its introduction, over two thousand consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, *Coughs, Cold, Head-ache, Palpitation of the Heart, Loss of appetite, or pain in the side,* lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Dibility*, or your *sleep is broken and disturbed*, if your *Spirits are Depressed* or your *Organs relaxed*, you will find in this an unfailing remedy, by commencing with *ten drops*. If your *Liver* is torpid or disease in any manner whatever *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia*, the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle*. In *Male or Female Complaints and Weakness*, the sufferer, after trying other remedies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles*. The "BLOOD FLOOD" is effectual in all cases of *Eruptions, Salt Rheum, Scrofulas* and other like complaints, *Pale and emaciated children and adults* are immediately benefited by its use. It gives strength to the body and color and beauty to the skin. *Physicians of all schools* are using it with wonderful success. For full directions, see circulars.
Price $1 per bottle.

Mothers!

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them. Second—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show; the very roots from which it is distilled being from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation, viz: FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsion or fits we earnestly recommend you to lose no time in procuring it. Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

THE
GREAT WONDER
OF THE NINETEENTH CENTURY.
PROFESSOR WOOD'S
HAIR RESTORATIVE.

Says the St. Louis (Mo) Democrat: Below we publish a letter to Dr. Wood of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffers from the press:

BATH, Maine, Jan. 29, 1859.

Prof. O. J. Wood & Co:

GENTLEMEN: Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite grey, probably one-third white; my whiskers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe, more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at you service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood—Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to answer to the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
FINLEY JOHNSON.

The undersigned, the Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Oxthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

BROOKFIELD, Jan. 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflamation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit. Yours truly,
J. K. BRAGG.

The Restorative is put up in Bottles of 3 sizes, viz: large, medium and small; the small holds 1 1-2 a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars a bottle; the large holds a quart, 40 per cent. more in ... Broadway, New York, (in the great N. Y. Wire Railing Establishment,) and 114 Market st., St. Louis, Mo.

And sold by all good Druggists and Fancy Goods Dealers. f25ind & wly

The Attorney General has given an opinion to the Secretary of State to the effect that under the Kansas Nebraska bill two-thirds of a quorum only and not two-thirds of all members of the two branches of a territorial legislature are necessary to pass a bill over the Govenor's veto. The language used in the act is identical with that of the Constitution of the United States in relation to bills vetoed by the President.

Speaking of vegetable wonders, we heard the other day of a lady whose lips were so sweet that she dares not go into the garden, for fear of the bees.

It is the only Gin in Holland recommended by the faculty there, and the imported have the authority of the leading physicians of Germany and America, to recommend it for the Cure and Prevention of the following diseases:

Asthma, Debility, Heartburn, Diarrhœa, Indigestion, Dropsy, Loss of Appetite, Dyspepsia, Natural Decay, Dysentery, Nervous Headache, Dropsy, Physical Prostration, Fever and Ague, Rheumatism, Female Irregularities, Rupture, Gout, Piles, Stricture, Diseases of the Colic, Diseases of the Bladder,

FOR THE NURSERY.

A CARD TO THE LADIES.

DR. DUPONCO'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do must always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames street, corner Church street, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. Ladies by enclosing $1 to *STURGIS & CO.*, Box 801, Newport Post Office, can have the Pills sent confidentially) by mail to any part of the city or country aug26 1y

HOWARD ASSOCIATION,

PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a Charitable Act worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their form and to give **Medical Advice Gratis**, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to **Furnish Medicines Free of Charge.** It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, expresses the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onaism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted; especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important and much despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of **Onanism**, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by **mail**, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, Dr. **George R. Calhoun**, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.

DR. DARIUS HAM'S AROMATIC Invigorating Spirit.

This Medicine has been used by the public for six years, with increasing favor. It is recommended to Cure Dyspepsia, Nervousness, Heart-Burn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Loss

Spirits, Delirium Tremens, Intemperance.

IT STIMULATES, EXHILARATES, INVIGORATES, BUT WILL NOT INTOXICATE OR STUPEFY.

AS A MEDICINE, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the DELIRIUM TREMENS, will, almost immediately, feel the happy and healthy invigorating efficacy of Dr. Ham's Invigorating Spirit.

DOSE.—One wine glass full as often as necessary.

One dose will remove all Bad Spirits.
One dose will cure Heart-burn.
Three doses will cure Indigestion.
One dose will give you a Good Appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and the moment the stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Cholic, either in the stomach or bowels.

A few doses will remove all obstructions to Kidney, Bladder, or Urinary organs.

Persons who are seriously afflicted with any Kidney complaints are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of the poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions should take the Invigorating Spirit three times per day; it will make you strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs and restore the bloom of health and beauty to the care-worn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cts., quarts $1.

STEREOSCOPIC EMPORIUM.

E. ANTHONY,
307 Broadway, New York.

After May 1st, 1860, at 501 BROADWAY, two doors from the St. Nicholas Hotel,

The Stereoscope is the most *instructive, interesting, entertaining, amusing,* and *exciting* of modern inventions.

None are *too young,* none *too old,* none *too intelligent,* none *too uneducated,* to acknowledge its worth and beauty.

No home is complete without it, and it must and will *penetrate everywhere.*

It presents to your view every part of the world, in all the *relief, boldness, perspective,* and *sharpness of detail,* as if you were on the spot.

Photographers are everywhere exploring Europe, Asia, Africa, America, in search of the grand and the beautiful, and *the results of their skill are constantly enriching our stock.*

We have an immense variety of paper Views of Scenes in Paris, London, England, Scotland, Ireland, Wales, France, Belgium, Holland, Switzerland, Spain, The Rhine, Versailles, St. Cloud, Fontainebleau, Tuilleries, Italy, Turkey, Egypt, Athens, the Holy Land, China, India, Crystal Palace, also Groups Historical, amusing, marriage scenes, breakfast scenes, pic-nics, statuary, etc, etc. An *exquisite assortment of Illuminated Interiors* of Palaces, Churches, and Cathedrals of France, Italy, etc., etc. The effect

FINED TASTE should have in his drawing room some of our *exquisite views on glass,* with a revolving stereoscope, showing 12,25 60 or 100 scenes. Nothing can be more fascinating, and one can offer no greater treat to a friend fond of the picturesque and the beautiful.

Anthony's Instantaneous Stereoscope Views are the latest Photographic wonder. They are taken in the *fortieth part of a second,* and everything, *no matter how rapidly it may be moving,* is depicted as sharply and distinctly as if it had been perfectly at rest. This gives an additional value, for to the beauties of inanimate nature *it adds the charm of life and motion.* The process is a discovery of our own, and being *unknown in Europe,* we receive from London and Paris large orders for Anthony's Instantaneous Views of American life and scenery.

Among other things we have just published Stereoscopic Illustrations of the Scene of the FULTON STREET PRAYER MEETINGS, in which many hearts feel an interest. The particulars of this will be found in our catalogue.

OUR CATALOGUE of subjects and prices will be forwarded to any address on receipt of a stamp.

Parties at a distance sending us $3, $5, $10, $15, $20, $25 can have a good instrument and such pictures as they may request, sent by *Express.*

Views alone, (without instrument) can be sent by *mail.*

Parties who wish to be advised of everything really valuable in the line that comes out, may send us their names to place on record, and we will keep them posted at our own expense.

Men of leisure will find Photography a most fascinating and delightful amusement. We are prepared to fit out *amateurs* with everything necessary for their success together with instructions "How to take Stereoscopic Pictures."

CAUTION.

Persons living at a distance should be extremely cautious of whom they order Lottery Tickets or Certificates of Packages of Tickets. Capital Prizes of from $20,000 to $40,000 head their schemes—with Tickets at One Dollar.—$100,000 Capital Prizes are offered, Tickets $5. All such, in every instance, are frauds, and if money is sent to them for Tickets, it is so much thrown away without the shadow of a chance of getting a prize. Beware of all Lotteries where the Capital Prize is unusually large in comparison to the price of Tickets. In every instance where large Prizes are offered for a small cost of Tickets, put it down for a certain fraud.

☞ All orders addressed to France, Broadbents & Co., Wilmington, Del., will meet with prompt attention, and the printed official drawings sent as soon as over.
